

Mthobisi Snalo Cele

Summary

I'm Mthobisi, an aspiring tech enthusiast deeply passionate about AI, Web Development and Software Engineering. My programming journey has been an exciting exploration, driven by an insatiable curiosity to innovate. Always open to new learning opportunities and gaining experience, I bring a solid foundation in Python, Java and Front-end technologies such as HTML, CSS and JavaScript. I have achieved certifications along my learning journey, demonstrating my commitment to growth.

Eager to immerse myself in the dynamic challenges of the tech industry, my aim is to expand my knowledge, gain practical expertise, and grow as a tech enthusiast in a supportive and collaborative environment.

SKILLS

- Python.
- Java.
- React.
- JavaScript.
- OpenAI Technologies.
- HTML.
- CSS.
- Microsoft Office.
- Node.js.
- Googling.

EDUCATION

Graduated 2020

Matric, Mariathal Combined School

- Mathematics, Physical Sciences, Life Sciences, Geography, Life Orientation, English (FAL), IsiZulu (HL)

2021-2023(Incomplete)

BSc Mathematics and Computer Sciences, University of KwaZulu-Natal

- Foundations of Computer Science, Introduction to Statistics, Introduction to Computer Science (Python), Introduction to Calculus, Computer Programming (JAVA), Data Structures (JAVA), Statistical Methods, Object-Oriented Programming (JAVA), Advanced Calculus & Linear Algebra, Computer Organization and Architecture, Operations Research, Discrete Mathematics with Applications, Calculus and Linear Algebra

EXPERIENCE

2023

University of KwaZulu-Natal Tech Society

Duties:

- Collaborated with fellow society members to organize and participate in educational workshops, seminars and events aimed at enhancing the technical skills of UKZN students.
- Facilitated knowledge-sharing sessions, contributing to the empowerment of peers by sharing insights, resources and experiences related to STEM disciplines.

- Played an integral role in promoting a supportive and collaborative environment within the society, fostering a sense of confidence among members as they navigated their STEM journeys.
- Engaged in initiatives that provided practical exposure to emerging technologies, aligning with the society's goal to equip students with the latest skills demanded in the industry.

My involvement in the UKZN Tech Society not only allowed me to contribute to a vibrant STEM community but also provided me with valuable experiences in leadership and collaboration.
